This year marks the 25th anniversary of the United Nations General Assembly's adoption of the Declaration and Programme of Action on a Culture of Peace.

In that declaration, the United Nations' most inclusive body recognized that peace "not only is the absence of conflict, but also requires a positive, dynamic participatory process where dialogue is encouraged and conflicts are solved in a spirit of mutual understanding and cooperation."

The International Day of Peace has always been a time to lay down weapons and observe ceasefires. But it now must also be a time for people to see each other's humanity. Our survival as a global community depends on that.

For this year's International Day of Peace 2024, the theme is "Cultivating a Culture of Peace".

Let us come together for this important day with a Multifaith/multicultural celebration and be one step closer to a world of peace through greater understanding.
